Do your High School students excel in math and science, and are they eager to work together to compete regionally or nationally?

Coach a team this year and compete in Oregon’s regional competition, the Salmon Bowl, on February 28th, 2015 on Oregon State University’s campus!

Compete for a chance to win great prizes from college scholarships to kayaking trips, and a chance to head to Ocean Springs, MS for the 2015 NOSB Finals competition.

Typical competition room set-up, the competitions follow a quiz-bowl format with multiple choice, bonus, and team challenge questions:

The National Ocean Science Bowl was established in 1997 to promote science learning through the marine system. Categories include biology, chemistry, geology, physics, history, and economics of the world’s oceans, as well as navigation, geography, and ocean-related current events.

Contact us, your regional coordinators, at: SalmonBowl.NOSB@gmail.com for more information and resources. You can also visit NOSB.org!
