Computer Science (CS) Funding

Educators: Apply by December 31, 2022
https://tinyurl.com/Apply4CS
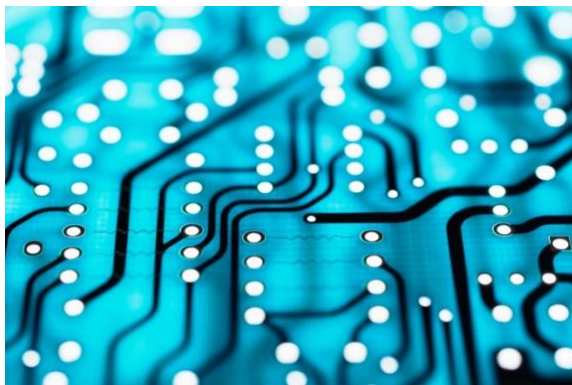

Are you a formal or informal educator who works with youth in a school, or in a school related program such as in an afterschool program or other out of class learning? Would you like to explore integrating computer science into your curriculum and/or activities? Are you able to connect with underrepresented or marginalized youth who may not have access to Computer Science through STEM education?

*The **OCSH** has funding from the **Oregon Department of Education** to support our coastal districts and partners to **purchase CS equipment**!*

For details about this opportunity, qualifying purchases, and tips for successful applications, visit https://tinyurl.com/CS-supplement

YOUR VOICE MATTERS:

Participate in an online engagement session to discuss and share ideas with ODE on the 2022 Governor's computer science directive.
 - Educators, career connected partners, students, families, and community members from across the state are invited to participate.
 - Multiple dates/times available.
