WORKSHOP SERIES

TEACHING ABOUT CLIMATE SCIENCE: INTO, THROUGH, AND BEYOND

Who: 4th to 8th grade educators, formal and nonformal

Dates & Times:

- Part 1: Saturday, January 27th, 2024, 9:00 a.m. - 1:00 p.m.
- Part 2: Saturday, February 10th, 2024, 9:00 a.m. - 1:00 p.m.

Curriculum:

- Project Learning Tree's Explore your Environment K-8 Activity Guide
- Project Wild's K-12 Curriculum & Activity Guide

Location: Oregon Coast Community College, Newport

Cost: Offered at no cost to Oregon educators - PDUs available

Description:

At Yakona Nature Preserve & Learning Center, we center "students as scientists" as they monitor the forest, collecting data used in climate science analysis. During this two-day, hands-on workshop, we will focus on and explore different curriculum, resources, and tools that Yakona employs, and discuss ways that participants can replicate the data collection model at their site. Please plan on attending both days.

Participants will receive Project Learning Tree's Explore your Environment guide and Project WILD's K-12 guide.

Registration required and will close approximately 1 week prior to the workshop or when full.
