

Sea Floor Graveyard Post Survey

Please give me some feedback about the activities we did about hypoxia and data collection. Filling this out is part of your grade for the week!

The respondent's email (**null**) was recorded on submission of this form.

* Required

1. Email *

2. Name (first and last) *

3. What was interesting about the Sea Floor Graveyard activities? *

4. What was difficult about the Sea Floor Graveyard activities? *

5. Which activity did you like the best? *

Mark only one oval.

- Introduction - Video of 2000/2001 and 2006
- Learning about what OOI is
- Learning about the different kinds of equipment used
- Learning about hypoxia and how it affects the ecosystem
- Learning about how math is involved in helping predict ocean factors

6. What is your reasoning for your answer to the last question? *

7. Which activity did you like the least? *

Mark only one oval.

- Introduction - Video of 2000/2001 and 2006
- Learning about what OOI is
- Learning about the different kinds of equipment used
- Learning about hypoxia and how it affects the ecosystem
- Learning about how math is involved in helping predict ocean factors

8. What is your reasoning for your answer to the last question? *

9. Overall, rate how well you think you understand the different areas of this activity now. *

Mark only one oval per row.

	1 - I don't understand anything	2	3	4	5 - I understand it well
Hypoxia & dead zones	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Equipment used to get oceanic data	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The purpose of OOI	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

10. What was the cause of the graveyard on the sea floor observed in 2006? *

Mark only one oval.

- Hypoxia
- Climate change
- Upwelling
- All of the above
