

## Oregon Marine Reserves

### GRAPH ANALYSIS

Directions:

Analyze the graph and write a reflection on what you think the graph is communicating to you. To guide you with your response, start with some observations.

- What is the topic of the graph?
- What does the x-axis represent?
- What do the y-axes represent
- What are some observations that you can make based on the graph?
- What do you foresee happening in the next 10 years?

### Questions to Ask When Reading Graphs:

- Is there an upward or downward trend?
- Are there any sudden spikes in the graph?
- What is being compared in the graph?
- What predication can I make for the future?
- What inferences can I make about the graph?
- At what point could intervention have made a difference?
