

OREGON MARINE SCIENTIST AND EDUCATOR ALLIANCE

Oregon Marine Reserves Ecological Monitoring Plan MINI POSTER PROJECT INSTRUCTIONS AND TEMPLATE

Name: _____ P: _____ Date: _____

Objective: Students will be able to summarize the ecological monitoring plan for one of the five Oregon Marine Reserves in a creative mini-poster project.

Instructions:

1. Use information from the “Five Ecological Monitoring Plans” PDF to turn the poster template into an informative graphic for people to better understand one of Oregon’s Marine Reserves.
2. Your poster should include the reference table, as well as drawings that show the habitat(s) and species present in the reserve. **(you may need to use internet sources for this)**
3. Use color and detail. Fill in all of the white space on your poster.
4. Due: _____

Notes for teacher:

- You can use popsicle sticks or strips of paper with each of the five marine reserves written on them.....students can then randomly pick a reserve.
- You can print or post pages 19-30 of the OMR Ecological Monitoring Plan (2015) for students to use to find information for their mini poster
