

Marine Scientists:

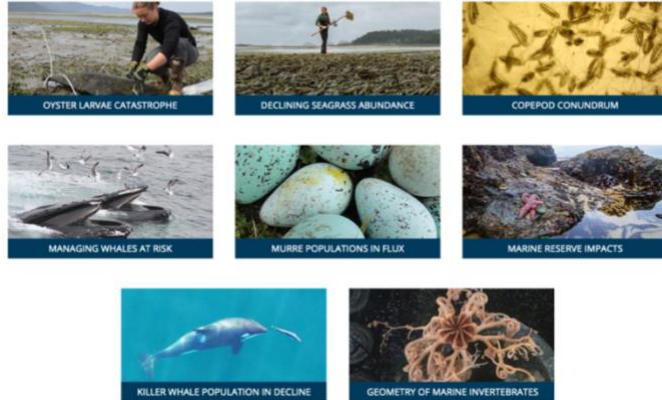

Apply to join the
2020-2021 ORSEA Cohort!

OREGON MARINE SCIENTIST
AND EDUCATOR ALLIANCE

ORSEA connects math and science educators with scientists to create and pilot lessons centered around marine-focused anchoring phenomena.

See 2019-2020 ORSEA Lessons
<https://oregoncoaststem.oregonstate.edu/orsea>

Collaborate with other marine researchers and middle school/high school educators to share your research and increase public understanding!

This year's ORSEA project will “kick-off” with a series of three webinars in January followed by monthly online check-ins through June 2021. Participants will work in teams to design and implement a place-based unit that integrates both math and science concepts. **Your role will be to support teachers with designing units that integrate your area of research and any real data sets related to your topic.** Teachers will determine when during the second semester to try their activities/lessons with their students. Your team will have through July of 2021 to complete and submit a unit write-up.

Participants
receive
**\$1500 in
incentives**

*ALL WELCOME: grad students * university researchers * resource managers*

Apply by Dec 11:
